An experienced team is the critical ingredient for long-term weight loss success. Our comprehensive weight loss surgery program centers on a team of trained multidisciplinary bariatric specialists comprised of minimally-invasive surgeons, a nurse practitioner, dietitian and psychologists who are dedicated to helping our patients accomplish their weight loss goals. The team works closely in all phases of treatment to assess each patients' situation and develops an appropriate plan of care.

### EDUCATION

Come meet future patients and those that have already had their surgery at our seminars and support groups.

### WEIGHT-LOSS

We help set expectations and personal goals for each of our patients. Highly trained and experienced behavior therapists, registered dietitians, and exercise physiologists are ready to help along your journey.

### RESOURCES

Thanks to our expertise and multi-disciplinary approach, we are uniquely equipped to handle even the most complicated weight management cases. St. Luke's - Roosevelt has over thirty years experience in treating patients at the extremes of obesity and performs over 500 Laparoscopic bariatric procedures each year.

### THE DIET

Aisling McGinty, M.S., R.D. provides nutritional counseling before and after your surgery.

### INFORMATION

Our dedicated bariatric Nurse Practitioner, Christine Hauffman, N.P., and other staff members will greet you at each visit and address your concerns.

**Y**our path to weight-loss begins at **St. Luke's-Roosevelt Hospital Center**. Our highly skilled and experienced professionals are ready with the newest and most effective strategies to help you lose weight, and more importantly, keep it off.

### RESEARCH

Bariatric Surgeons at SLRHC work closely with doctors at the NIH funded, New York Obesity Research Center, located at St. Luke's Hospital.
